

Performing Static and Dynamic Quality Control Testing

Internet and Web Application Security 3e - Lab 6

Student: Samuel Guardado

Email: sguar5@brockport.edu

Report Generated: Thursday, July 30, 2026 at 5:17 PM

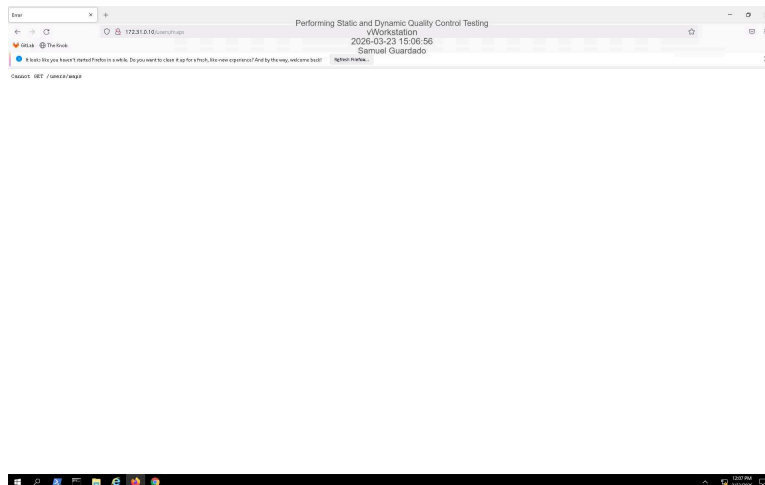

Time on Task: 3 hours, 3 minutes

Progress: 100%

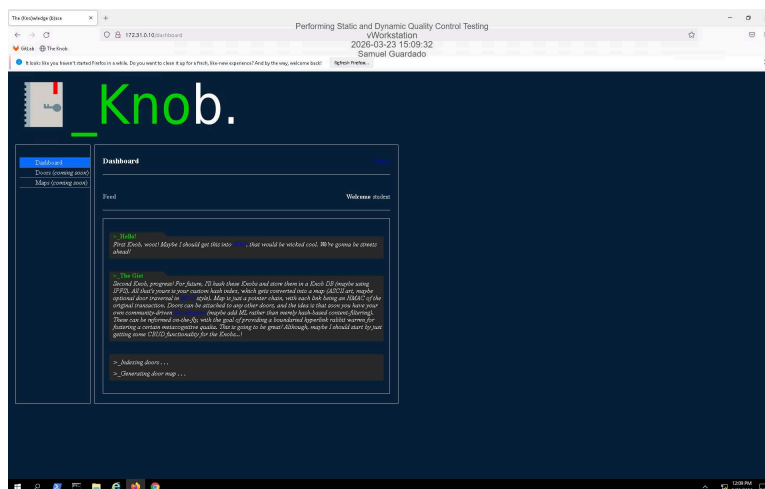

Hands-On Demonstration

Part 1: Manually Test the Website Functionality

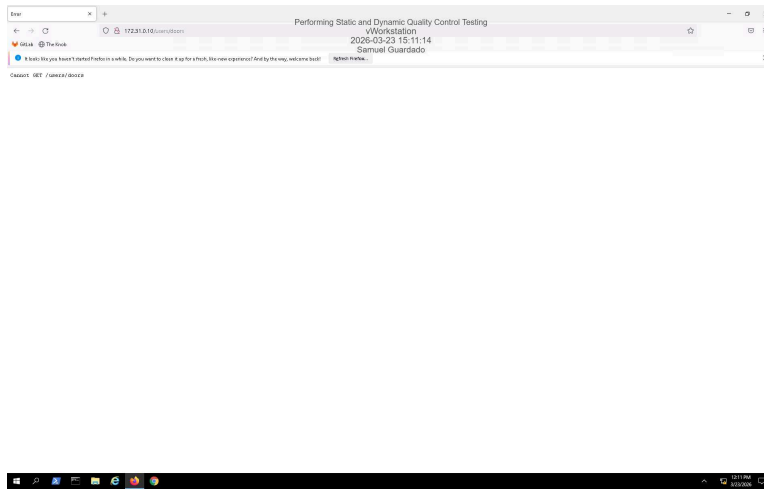

5. Make a screen capture showing the error page.

12. Make a screen capture of the dashboard page, including the "Welcome student" phrase.

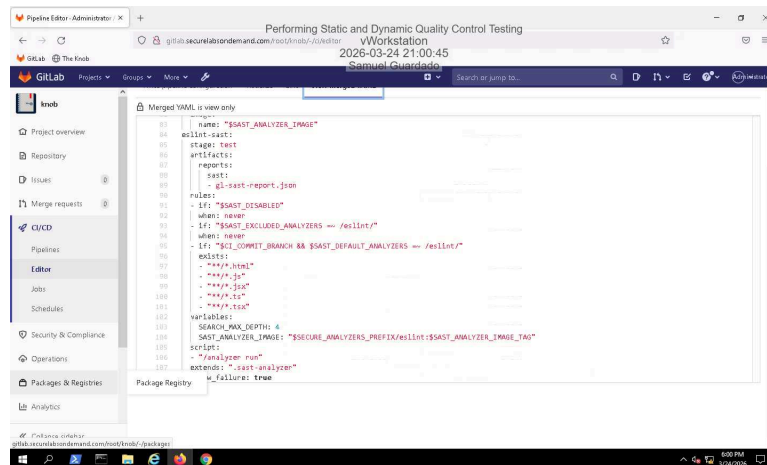

18. Make a screen capture showing the broken Doors page.

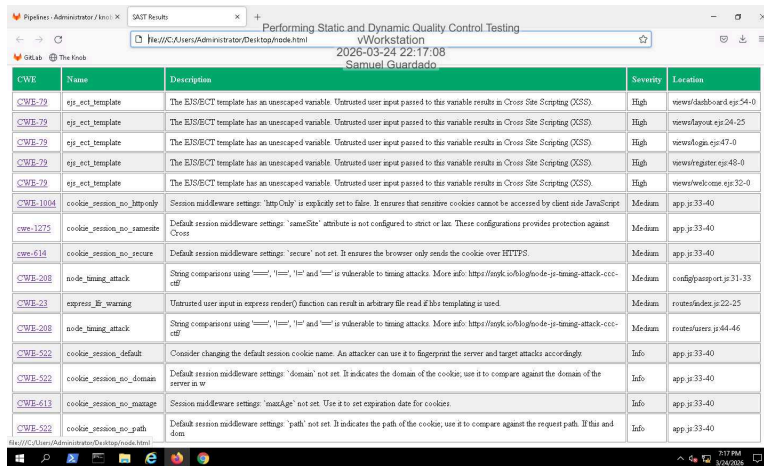

Part 2: Perform SAST Using CI/CD in GitLab

8. Make a screen capture showing the rules part of the eslint-sast test.

21. Make a screen capture showing the five high severity issues identified by the nodejs SAST scan.

Part 3: Perform DAST using OWASP ZAP

4. Make a screen capture showing the page about the ZAP proxied browser.

Part 1: Use Semgrep to run SAST on the command line

12. **Make a screen capture** showing the **first three warnings** for `app.js`.
